ENVIRONMENTAL POLICY STATEMENT

PDM Neptec Ltd (The Company) is committed to continually seeking to improve the environmental impact of all of its work activities and to minimise any pollution, which might be produced because of those activities.

The Company will ensure that its workforce receive adequate environmental training relevant to their job with a view to increasing competency and environmental awareness in their activities and will actively seek from them any means to continually improve the evolution of the environmental management system and this policy.

The Company will ensure compliance with all the relevant United Kingdom and European Union legislative Acts, Regulations, Directives and Government Guidelines and will give timely consideration to future articles of this nature.

The Company will assess and minimise the risk of pollution in all of its activities to as low a level as is reasonably practicable.

The Company will also assess its' carbon footprint and take measures to reduce this as a long term strategic goal.

The Company is committed to maintaining an environmental management system that conforms to the requirements of ISO 14001.

The Company will ensure that this policy is communicated to, and supported by, all personnel. It will be constantly reviewed in line with the goals of the Company and updated when necessary.
